CATALOG SEMINTE

## SOIURI NOI OFERITE DE OPAL ZI OOD

### PEPENE DIAMANT LUX F1

Soi bulgar timpuriu hibrid de peneni, potrivit pentru cultivare în sere și pe câmp. Fructele sunt cu formă de elipsă, ușor segmentate, cu o coajă de culoare galbenă și pulpă groasă portocalie. Suculent și aromat, cu un gust excelent. Perioada de vegetație - 70-78 zile. Soi rezistent la mană obișnuită și la mană Cubaneză, tolerant manei făinoase.

### ARDEI LABA URSULUI

Nou soi bulgar cu fructele mari, de tip capia. Formează plante puternice, cu frunzele mari. Fructele sunt dulci, cu pericarp gros și un gust excelent, cu lungime de 16-18 cm. Este destinat producției mediu-timpurie, pentru consum în stare proaspătă sau prelucrat.

**SEMĂNAȚI, ÎNCERCAȚI ȘI SAVURAȚI**

## SOIURI NOI OFERITE DE OPAL ZI OOD

### PEPENE CRISTAL

Soi bulgar mediu timpuriu. Fructele sunt cu formă de elipsă, ușor segmentate, cu mărime de 1,5 - 2,5 kg. Au o coaja solidă, nu crapă, delicat acoperită cu o rețea fină, de culoare galben-verde. Pulpa este de culoare verde deschis, grosă /5-6 cm/, succulentă, cu o aromă plăcută și un gust excelent. Perioada de vegetație - 80 - 85 zile. Norma de însămânțare – 250-300 g/dka. Producție medie – 2,5-3 t/dka.

### ARDEI PEȘTE PICANT

Soi bulgar de ardei pentru producție medie-timpurie pe câmp deschis. Plantele sunt de înălțime medie. Fructele sunt atârinate, seamănă cu pești, cu lungime medie de 8-10 cm, de culoare galben-lămâie până în galben, iar când ajung maturitatea botanică devin roșii. Au un gust iute plăcut. Soi cu producție mare destinat consumului în stare proaspătă sau conservării.

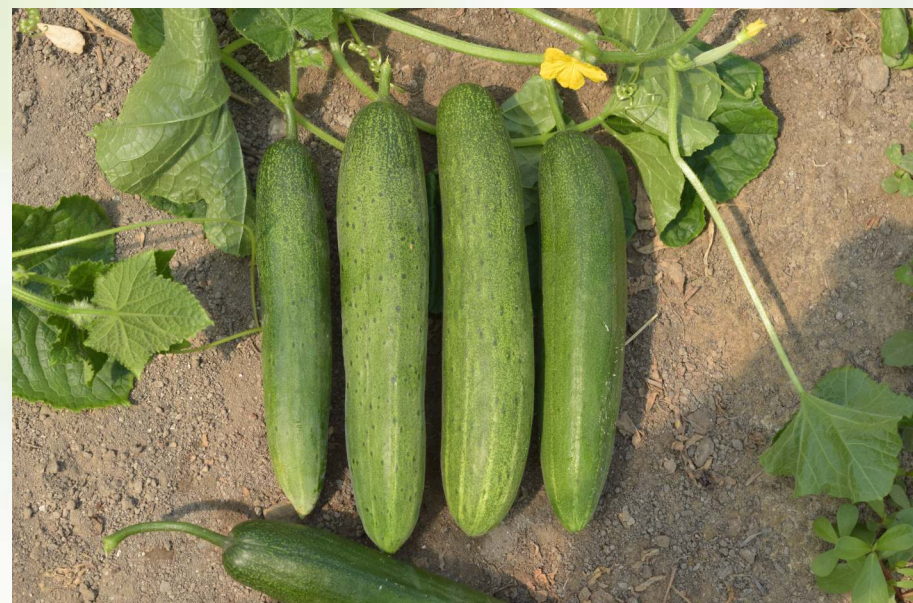

**SEMĂNAȚI, ÎNCERCAȚI ȘI SAVURAȚI**

### ROȘII DAMSKO SARCE

Soi nedeterminant mediu timpuriu de roșii, cultivat în sere și pe câmp. Fructele sunt mari 150- 200 g., cu o piele subțire, cu suprafață netedă, fără fisuri, cu formă de ou, un gust plăcut și de culoare roz delicată. Sunt cultivate pe țărugi, câte o tulpină, la 6- 7 inflorescențe. Formează 5- 6 roșii pe o ciorchină. Norma de semănat - 15- 20 g/1000 metri.

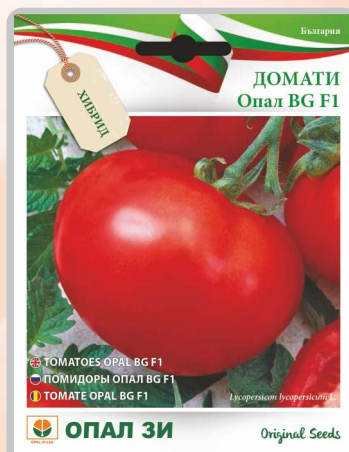

### CROCODILE Ț CASTRAVE

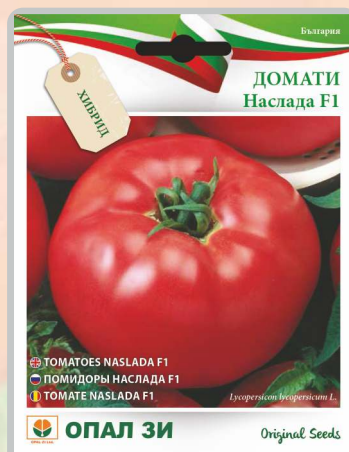

Soi cu randament ridicat și un gust excelent. Fructele sunt de culoare verde deschis, cu o coajă moderat buburoasă și o carne fragedă succulentă. Se pretează pentru cultivare în seri de polietilenă sau în câmp deschis. Soi de salată.
